There are baseball teams and basketball teams, volley ball teams and soccor bootball teams, track teams and most every other kind of a team you can think of, to say nothing of a roster of boxers and wrestlers whose names are known to every American who has ever perused a sport page. everworked doughboy who came to fight

### Medals to Be Awarded

Interest has been even keener since announcement was made that medals will be awarded to all firsts and seconds in the track events, the medals being very beautiful hittle affairs with a picture of Washington and Lafayette on one side, and "First Prize," or "Second Prize," together with the event and date, on the other side. The meet will be held in a great big field with plenty of room to pull off two ball games and a volley ball tournament simultaneously with the track events. It will be a sort of three ring circus, any ring of which will be well worth the price of admission, which is nothing, except that a collection will be taken up for a hospital here which is being sustained by the French athletic organization which owns the grounds and has turned them over to the American E.F. for the day.

The events will be as follows: Hundred yard dash, 220 yard dash, 440 yard dash, half mile relay race, shot put, running broad jump, and running high jump. A military feature of the meet will be a hand grenade throw, competition platons defill, manual of arms competition and company exhibition drill.

Some Coming Battles

And boy, there's going to be some battle when the colored boys from two different camps, any one of which would have been fast enough for the old Cuban Giants in their pulmiest days, play off that seven inning ball game.

But the big event of the day will be the ball game between the crack Navy team from Whatchumacullit and the crack O.D. team in the Base. The Army claims they'll run them sailors seasick, while the latter are equally confident that they can make the Army team walk the plank to Davy Jones' locker.
